RE: Dr. Robert M. Battle, M.D.

To Whom It May Concern:

I am a 65 year old female who has been under the care of Dr. Battle for the last 2 ½ years. I am an accountant by education and a small business owner. I have raised five children and currently have sixteen grandchildren. I hope to pass on to these children and grandchildren the idea that it is important that they take an active role in the decision making regarding their own health.

When I first began seeing Dr. Battle I had been on blood pressure medication and a sleep aid for several years. My only other complaints were the usual lack of energy and memory problems described by many people my age. Dr. Battle spent the time necessary to thoroughly evaluate my condition and, as he sometimes puts it, we began "peeling the onion" (in other words step by step clearing away the impediments to my optimal health). I now am off all prescription medications, my memory is back to normal, and I sleep very well, have great energy and recover quickly after days that are particularly taxing.

The experience at Comprehensive Health clinic is exceptional in all ways. The staff is knowledgeable and caring and they answer any and all questions I may have. It is comforting to have Dr. Battle and his staff overseeing my care.

Sincerely,

A handwritten signature in black ink, appearing to read "Deborah Brown", with a long, sweeping horizontal line extending to the right.
